

Y4 – Art – Zentangle – Challenge 3

For this challenge, you need the Internet. Look at images of wild animals and see if you can turn any of their body parts into zentangle patterns. You could choose their markings, beak patterns, eyes, wings etc.

Choose 6-8 animals that interest you. Draw 6-8 splats on your page and create a zentangle pattern in each one, based on the patterns you found.

Here is mine as an example:

You can colour this too, if you wish.

Here are some wild animal prints to get you started:
