

We read about Jacques Cousteau yesterday and how he explored places underwater. Where would you like to explore? Underwater? Mountains? Jungles? Deserts? Space?

Task: List lots of words that you might use when talking about the place you want to explore.

nouns (What can we detect using our five senses?)	verbs (What would we be <i>doing</i> there?)	adverbs (How would we be doing these things? Often ly words.)
coral	exploring	carefully
caves	diving	excitedly
sunken ship	taking photos	nervously
