

Y2 – Tuesday – Mass - ANSWERS

LO: to measure mass in grams

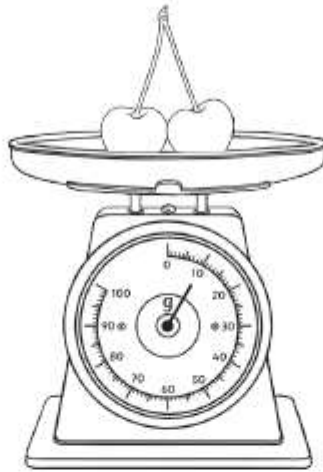

Use the previous questions to work out how much these objects weigh:

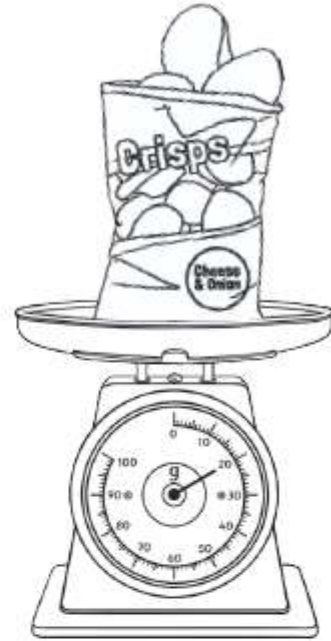

100 g

10 g

20 g

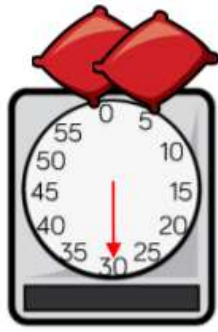

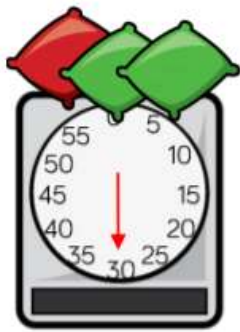

50 g

75 g

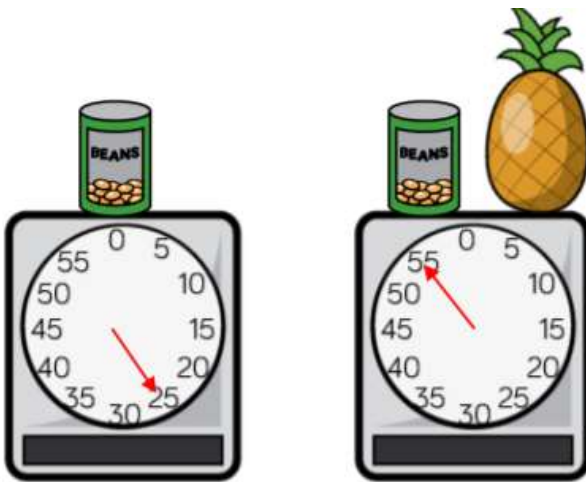

25 g

Which is heavier, the red or the green beanbag?
Explain why.

The red beanbag weighs more because it weighs the same as **two** green beanbags.

The tin of beans weighs 25 g and the pineapple weighs 30 g

The  weighs g.

The  weighs g.
