

## Y3 – 2d Shape – Tuesday

### LO: to draw 2d shapes

### Draw the following shapes:

1. A square with sides measuring 2cm
2. A square that is larger than the one you have just drawn.
3. A rectangle with sides measuring 4cm and 6cm.
4. A triangle with two sides of equal length.
5. A parallelogram
6. A rectangle where the long sides are double that of the short sides.

Join dots on the grid to make a quadrilateral that has **3 acute** angles.

On the grid join dots to make a triangle which does **not** have a **right angle**

Use a ruler.
