

LO: What do humans and other animals need to live?

1. Have a look at the pictures of these animals. What do they need to live?

Air, water, food and shelter.

Tip: there are four things that humans and animals need to survive.

Tip: a PlayStation is not one of them.

2. Watch the video below to see if you were correct and then complete the quiz.

<https://www.bbc.co.uk/bitesize/topics/z6882hv/articles/zx38wmn>

3. Look at the animals below. Do they all have the same type of shelter? Do they all eat the same food? Do they get water and oxygen in the same way? Complete the table.

	rabbit	snail	eagle	clownfish
				
shelter	burrow	shell	nest	coral
food	Plants like grass, weeds	Plant leaves, stems	Small animals, fish	Plants and animals
water	They get water from the food they eat.	Drink water from puddles and from the plants they eat	Absorb water from the food they eat and some drink water from freshwater sources.	Absorb water through skin
oxygen	Breathe air through their nose.	Land snails have a breathing hole and a lung.	They take breathe air through two small slits near the top of their beak into their lungs.	They take in oxygen from the water through their gills.
