

## Fractions problems

- 1) Zaid scored  $\frac{3}{5}$  of his 30 shots in a football game. How many did he score?
- 2) Olivia bakes 25 bread buns. If she eats  $\frac{2}{5}$  of them, how many is that?
- 3) Gabriel answers 3 questions, which is  $\frac{1}{3}$  of all of them. How many questions are there altogether?
- 4) Mr Owen has 24 emails.  $\frac{1}{3}$  of them are from other teachers and  $\frac{1}{6}$  of them are from Mrs Weekes. How many are left?
- 5) Mrs Charlesworth reads  $\frac{1}{4}$  of all of the books in Y3. Then Mr Wilks reads half of what is left. There are 3 books still to read. How many were there to start with?
