#### **LO: to make inferences**

You may have lots of other inferences which I've not thought of. Well done!

Here are mine. How many did you get? Do you disagree with any?

1. The title is Everest which I know is a mountain so maybe the book is about climbing Everest.
2. The setting looks snowy so they're somewhere cold.
3. The people are wearing warm clothes so it must be cold where they are.
4. The people are above clouds so they're very high up.
5. They look like they're at the summit of a mountain.
6. The people are smiling so they may be happy about reaching the top of Everest.
7. The people are wearing sunglasses so it must be bright.
8. The people are carrying ropes and axes so they may be mountain climbers.
9. The two people in the picture are Edmund Hillary and Tenzing Norgay as it says this is their remarkable story.
